SUMMARY

Entry-level DevOps/Cloud Engineer with an AWS Cloud Practitioner Essentials certification and a B.E. in Electronics & Telecommunication Engineering (2026). Build and deploy projects on AWS using Docker, GitHub Actions, Terraform, and Linux, with a focus on automated, repeatable deployments. Eager to join a team where I can learn from real production work and grow as a DevOps engineer.

TECHNICAL SKILLS

Cloud: AWS (EC2, VPC, IAM, S3, CloudWatch)

DevOps & CI/CD: Git, GitHub Actions, Docker

Infrastructure as Code: Terraform

Operating System & Scripting: Linux (Ubuntu), Bash

Networking & Monitoring: Networking Fundamentals, Security Groups, AWS CloudWatch

PROJECTS

Two-Tier Application: AWS Deployment and CI/CD **GitHub**
(AWS EC2, Docker, GitHub Actions)

- Deployed a two-tier application (application tier and MySQL database tier) on AWS EC2 using Docker Compose.
- Containerized both tiers to ensure consistent, reproducible deployments across environments.
- Built a GitHub Actions CI/CD pipeline to test the application, build Docker images, and publish them to GitHub Container Registry.
- Secured the deployment with AWS Security Groups and environment-based secrets to restrict network access and protect credentials.

AWS Infrastructure Automation Using Terraform **GitHub**
(Terraform, AWS, Linux, Bash, GitHub Actions)

- Provisioned AWS infrastructure using modular Terraform configurations, including VPC, public/private subnets, route tables, Internet Gateway, security groups, and EC2 across two Availability Zones.
- Automated Ubuntu EC2 web server setup using Bash user-data scripting and Nginx; configured IAM-based Systems Manager access and CloudWatch CPU monitoring with SNS email alerts.
- Implemented GitHub Actions CI to automate Terraform formatting and validation on pushes and pull requests, ensuring configuration consistency before manual deployment.

EDUCATION

B.E., Electronics & Telecommunication Engineering *2023 – 2026*
MCT's Rajiv Gandhi Institute of Technology, Mumbai

Diploma, Electronics Engineering *2020 – 2023*
Government Polytechnic, Mumbai

CERTIFICATIONS

- AWS Cloud Practitioner Essentials **Certificate**
